

Energy and Waste Management Volunteer Opportunity

Less Waste Projects

Description:

- Assist community residents in reducing household and business waste
- Distribute information about starting recycling programs at home and work
- Distribute information about how to get removed from "junk mail" lists
- Organize a community household waste assessment team to help homeowners and businesses identify opportunities to reduce, reuse, and recycle
- Organize a "clean out your closets/files" day
- Organize a community-wide one-day or weekend garage sale
- Coordinate the creation of a database of community organizations or groups that need donated items and items that they need
- Distribute database list to community businesses and service groups
- Coordinate informational seminars and "lunch and learn" presentations on reducing waste and recycling opportunities
